

Denver Figure Skating Club Members,

As of January 1, 2010, Denver Figure Skating Club is faced with the need to raise our USFS test session fees. For years our ice time, for test sessions, has generously been donated by South Suburban Parks and Recreation. Unfortunately, as of January 1, 2010, the club will be required to pay the substantial ice rental costs. The DFSC Board of Directors has revised the test fee structure in order to continue providing test sessions to our skaters. As part of this process we have gathered information from several local clubs to ensure our new test fees are competitive. Please know that we will continue to try to find ways to provide test sessions at costs that are as reasonable as possible. For further information please refer to the attached 2010 test form.

If you need any additional information please contact the club President, Lisa May, at [president@denverfsc.org](mailto:president@denverfsc.org).

Thank you for your patience and understanding,

Denver Figure Skating Club Board of Directors
